Subject: Evaluation of Reclamation Surety, Lakeview Rock Products, Beck Street Quarry, M/035/0020, Salt Lake County, Utah

Dear Mr. Hughes:

The Division of Oil, Gas and Mining's last reclamation cost estimate for the Beck Street Quarry was \$363,100 escalated to 2011 dollars, so the reclamation surety amount is now due for review and adjustment. The Division may adjust the amount of reclamation surety as the result of a periodic review taking into account inflation/deflation based on an acceptable cost index (R647-4-113.6).

The Division has developed spreadsheets to assist both the Division and mine operators to calculate the reclamation surety amount using standard unit costs. They are available on the web site at <http://www.ogm.utah.gov/minerals/>. Please complete these forms and return a copy to the Division for review. Once the forms have been reviewed, the Division will ask that you adjust the amount of surety to reflect the current reclamation cost estimate. **Please submit the reclamation cost estimate as an amendment to the Notice of Intention to Commence Large Mining Operations (LMO) by December 19, 2011 so the information can be incorporated into the plan.**

Please take this opportunity to review the mine plan and amend the plan as needed to show changes in operations.

If you have questions about the spreadsheet or calculations, please contact Wayne Western at 801-538-5263 or by e mail at waynewestern@utah.gov.
